

Westwood Robotic Technologies, Inc.

Offering Advanced Manufacturing Solutions

Quality	Precision Robots Produce Consistent Results
Safety	Meet OSHA & ANSI Standards
Ergonomics	Solutions for Repetitive Task Injuries
Maintenance	Reduce Overall Costs & Downtime
Production	Supply Market Demands With Flexibility
Cost	Excellent Investment Return
Space	Innovative Modular Systems

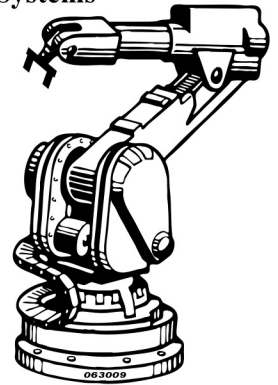

Applications

Arc Welding
Material Handling
Grinding/Polishing
Machine Tending
Palletizing

Westwood Product Range

Production Industrial Robots 30 Models
Flexible Work Presentation Systems
Positioners
Manipulators
Safety Enclosures
Exhaust Systems
Fixturing
End-of-Arm Tooling
Linear Tracking
Turn Key Solutions

Westwood Can Do For You

Increase Your Productivity
Reduce Your Operating Costs
Maintain Consistent High Quality
Improve Safety Environment
Planned Maintenance

Westwood Services

Consulting	Training
Design	Programming
Cycle Time Analysis	Trouble Shooting
Project Justification	Testing
Full Installation	Technical Support

Westwood has over 24 years of experience providing turnkey robotic systems to manufacturers and fabricators across the country. Our highly trained staff of technicians and engineers are ready and willing to tailor a system that's suited to your specific application no matter how simple or complex. Just give us a call, we want to earn your business and trust.
